

SERIES 87

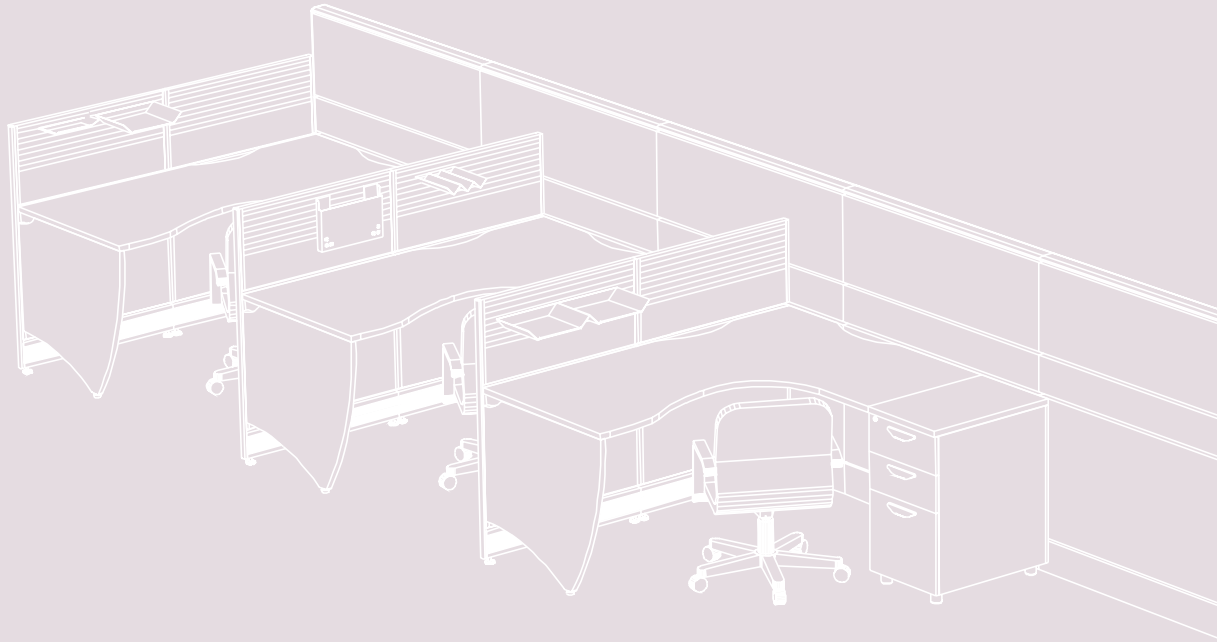

The Modern Aesthetic together with function

In response to the world of fast pace and borderless communication, Series 87 creates the perfect working environment. This innovative work of art flawlessly combines all angles of functional requirement and modern aesthetic together.

The smart "Off Module" system allows Series 87 to magnificently integrate with the partitions of any Rockworth's Series.

Series 87 module proves to be of true value with its high flexibility and efficiency of transforming and responding to the various work styles and requirements throughout the organization. The module can be reconfigured easily in a minimum time and energy.

SPECIAL DETAIL

The ingenious system of Series 87 provides the best answer to electrical cabling and wiring management. All the cables and wires can be conveniently placed along the raceway to connect with the outlets on the top of the table.

The pedestal which can be utilized for any purposes including filing, corresponds perfectly with the workstation. Its high durability is guaranteed by premium quality glider.

Series 87 offers lively working environment with screen partition. The partition is designed with various materials, colorful fabrics and polycarbonate. Its stylish steel rail design exquisitely supports any model of Rockworth's accessories.

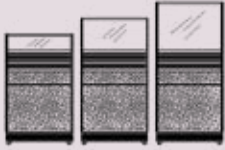

Rockworth's renowned Series 87 illustrates the perfect composition of form and functionality. It answers to the changes in everyday need of fast growing business. Its flexibility grows beyond your expectation and fulfills your unlimited desire for office system management.
