

S12

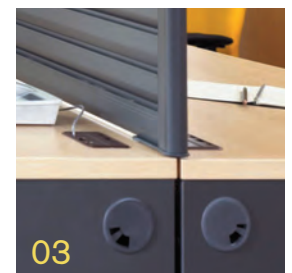

SIMPLICITY THAT
RESPONSE TO
EFFICIENT WORK

S12 marks the excellence in aesthetic design and durability with unyielding material quality.

The premium wooden finish reflects the superiority and elegant look, with proven value for investment.

SPECIAL DETAILS

01 S12 enhances the electrical wiring management with raceway supporting from underneath the work surface. This leads to the drop down area from the table side that conveniently connects to the outlet installed at middle leg.

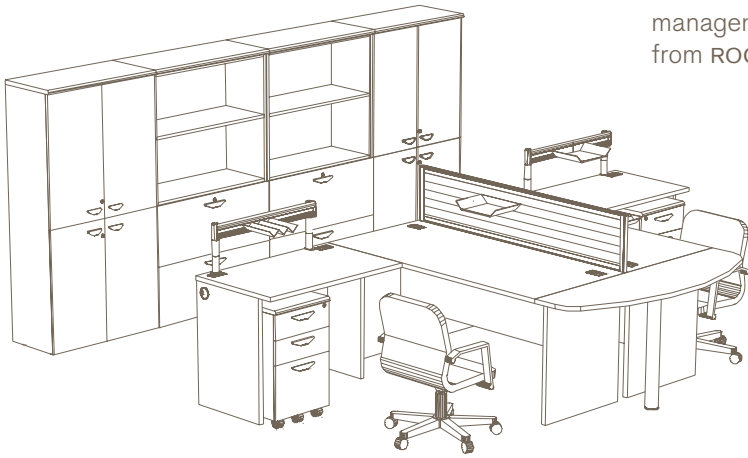

02 The beauty of S12 is added on with selection of various colorful panel screens. The elegant arch-shaped designed privacy screen defines the work space for individual need, yet creating a high spirit interactive ambience. With ROCKWORTH's latest technology, S12 privacy screen can be easily removed, reassembled and repositioned without damaging the table surface of the privacy partition.

03

With the combined distinctive power-coating technology and premium quality durable steel structure, ROCKWORTH's S12 ensures high durability and beauty.

S12 emerges in the uniquely classic and elegant design, yet offering the uncompromising office system quality. The wooden module offers value for investment with distinctive combination of benefits that respond to the demand of today's office solutions. It harmoniously merges into any office system environment.

S12 visualizes simplicity and functionality. Every design step pictures a complete and smooth work flow throughout the working area. These functional features range from its efficient electrical wiring management to the multi-hierarchical drawers and other addition from ROCKWORTH's innovation.
